Delays in finalising Half-Year Report ended 31 December 2019

Astron Corporation Limited (ASX:ATR) (“Astron”) has experienced delays in finalising its Half-Year Report, which was due to be released on ASX on 28 February 2020.

One of the significant factors that has delayed the completion of the Half-Year Report was the mandatory government-imposed shutdown of the Astron office in Yingkou, China due to the coronavirus COVID-19, which effectively caused an extension of the lunar holiday for a further 2 weeks, meaning the office was closed for a total of 3 weeks.

Astron anticipates completing the Half-Year Report within the next few days, and is working to finalise this as soon as possible, acknowledging that trading in Astron’s securities will be suspended until the Half-Year Report is issued.
